Employers reference – Souters Sports Ltd

Souters Sports Ltd tendered for the reconstruction and additional drainage systems for a County standard rugby pitch through an RFU framework to be provided at Redditch Cricket, Hockey and Rugby Club.

From the beginning of the job Souters demonstrated that they had a strong approach to project management providing timely and concise programme information, detailed works programmes and valuation/cost information.

They demonstrated their commitment to quality on site by being punctual, communicating with the client the works that were to be carried out on each visit and if any changes were likely due to weather constraints.

The standard of workmanship and the plant and machinery supplied was of a high standard. Prompt valuation and cost information was available to the client at all times. We were able to strike a good working relationship with the project and works management team and were assured of their best efforts at all times to deliver our project.

The project was delivered on time, to budget with the minimum of fuss. Souters have also demonstrated a high level of aftercare service with regular follow up contact and visits to site through the defects period.

We would have no hesitation in recommending them to others considering sport pitch construction, cultivation and drainage works projects.

Yours Sincerely
